

WIDMER TIME RECORDER Co., INC.

The Need

University and Municipality Registrars, Health Officers and other government officials must provide "Original Documents" which are difficult-to-nearly impossible to alter or forge.

The Solutions

CERTIFICATION
EQUIPMENT FROM
WIDMER**

776-E EMBOSSEER, DATER, SIGNER

The Model 776-E embosses a raised seal into a document while at the same time prints a combination of signature, title, date and additional text—all in one easy step! Signature and text may be printed in single or tri-colored ink. The print/emboss trigger is paper activated—no buttons to push or levers to pull. The 776-E uses the same rugged components as the tried & tested 776.

Options include :

- Electric security lock
- Adjustable guide plate
- Military or conventional date and time

The Widmer 776-E satisfies a broad range of applications. It can sign, validate, certify and date university and college transcripts, birth & marriage certificates, and offer the one-step solution to many municipal, county, state and national government agency applications.

RS-PTV DOCUMENT CERTIFIER

The Model RS-PTV Document Certifier prints the agency's official seal, the Official's signature, title and additional appropriate text onto the document in single or tri-color indelible ink. When large quantities are to be processed, manual printing and signing thousands of documents each year is unproductive and fatiguing. Be confident and secure that all documents are original & certified. The RS-PTV will sign and print seal in one pass through this high-speed, cut-sheet imprinter at a rate of 180 per minute. Dual security locks and removable die plates are standard for added security and fraud protection

Additional Benefits include batch & non-resettable counter, the ability to process small forms as well as large legal & European size papers and nine programmable presets to reduce operator input and set-up time.

More Document Certifying Solutions!!!

E-3 Embosser

Model E-3 Electric Embosser The E-3 manual feed embosser creates a raised seal onto the document. Single hand operation, no buttons to push, or levers to pull. Stamping pressure can be easily electronically adjusted for different paper thickness. Options include security lock, guide shelf, visual counter and others.

Model TV-776 Electric Imprinter Will print the Agency seal, Official's signature, title and other appropriate text in tri-color or single color ink. Two printing heads enable numerous combinations of seal, signature, text, date and number. Options include security lock, guide shelf, LED time display, visual counter and others.

TV 776 Imprinter

E-3 Embosser

D-3 Date / Signature Stamp

The Two-step Emboss & Imprint Combines the E-3 Embosser and D-3 Date / Signature stamp. Documents can be processed with the Agency seal embossed and the official's Signature, title and date (and/or numbered) imprinted in indelible ink..
