

# WIDMER MODEL 776-LED

## AUTOMATIC NUMBER, DATE, AND TIME STAMP

### FEATURES

*Dual Printing Heads*  
*Precise Timing*  
*Accurate Numbering*  
*Heavy Penetration*  
*Lasting Performance*

Model 776 available without Digital Display.

The Widmer 776-LED is versatile and unique. It offers two printing heads that will enable printing numerous combinations of Time, Date, Seal, and Numbering, as well as Alpha Wheels for coding.

Printing is done in one easy step! The print trigger is paper activated—no buttons to push or levers to pull.

Signature and text may be printed in single or tri-colored ink.

The printing mechanism can be factory adjusted to print in a specific location.

Stamping force can be electronically adjusted to penetrate carbonized forms and pressure sensitive carbon-less forms.

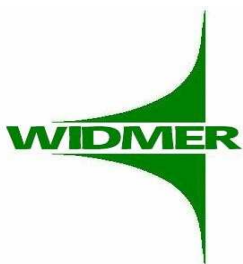

The open throat design enables the user to insert and print on any size documents.

Cast iron upper and lower casing insures stability and long life.

#### Options include :

- Electric security lock
- Fixed or adjustable guide plate
- Military or conventional date and time

The Widmer 776 LED satisfies a broad range of applications. It can sign, validate, certify and date university and college transcripts, birth & marriage certificates, and offers a one-step solution to municipal, county, state and national government agencies.
