WIDMER UNIVERSAL TEXT PERFORATOR MODEL P-400U

Simply designed and economically priced heavy duty manual perforator with solid steel handle and fulcrum pin mechanism which provides an easy to use smooth single cutting action. This secure method of punching holes in documents permanently cancels or validates multiple documents simultaneously.

The Model P-400U perforator is unique in that almost any 5 character or less word can be custom installed, no longer limiting your selection to "PAID", "VOID" OR "CNCLD". The model P-400U provides almost limitless applications to fulfill your needs.
